PROFESSIONAL SUMMARY

Detail-oriented **Application Engineer** with 1 year of professional experience at **Padmasini Innovations Private Limited**. Proven expertise in the **MERN stack**, Java, and Python. Successfully developed and deployed live EdTech platforms, automated payroll systems, and integrated AI-driven solutions. Adept at translating complex requirements into scalable, production-ready software.

TECHNICAL SKILLS

- **Web Development:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Programming:** Java, Python, JavaScript, C, Microsoft SQL Server
- **Databases:** MongoDB (Mongoose), SQL (MySQL/PostgreSQL)
- **AI & Tools:** AI Integration (Lip-Sync), Git, GitHub, Power BI, Excel, Multer
- **Methodologies:** RESTful API Design, Agile, Role-Based Access Control (RBAC)
- **Cloud & Deployment:** AWS EC2, AWS S3, Vercel, Render, DeploymentManagement

PROFESSIONAL EXPERIENCE

Padmasini Innovations Private Limited | Application Engineer | May 2025 – Present

KEY PROJECTS

Padmasini LearnForward (<https://padmasini.com/Learnforward/>)

Role: Full-Stack Developer / Frontend Engineer

Developed a responsive AI-powered EdTech platform for K-12, NEET, and JEE students, featuring personalized learning, AI tutoring, test analytics, behavior tracking, and performance dashboards. Built cross-platform web and mobile applications using React, Vite, Node.js, Express, Spring Boot, MongoDB, and Redis. Integrated OpenAI APIs for AI mentoring, Razorpay for payments, JWT authentication, CloudFront CDN, and KaTeX/MathJax for mathematical content rendering.

Technologies: React 19, Vite, JavaScript, HTML5, CSS3, Capacitor.js, Node.js, Express.js, Spring Boot, MongoDB, Redis, OpenAI API, Recharts, KaTeX, MathJax, Razorpay, JWT, CloudFront, Nodemailer.

Payroll Management System

- Developed a payroll application to automate salary processing and employee management.
- Implemented payroll calculations, reporting, and secure database operations.

Technologies Used: React.js, Node.js, Express.js, MongoDB

AI-Driven Lip Sync Integration

- Integrated AI-based lip synchronization technology for educational video content.
- Utilized Python for media processing and multimedia enhancement.

Technologies Used: Python, AI Tools, Video Editing Tools

Hostel Management System & Student Portal

- Developed a MERN-stack hostel management system with Admin and Student portals.
- Implemented attendance tracking, room management, fee monitoring, and complaint management features.

Technologies Used: MongoDB, Express.js, React.js, Node.js, Node-Cron, Multer

INTERNSHIP

Chenosa Technology Solutions Pvt Ltd. | *March 2025 – April 2025*

Worked with Microsoft SQL Server to develop SQL queries, manage databases, perform data operations, and support database maintenance activities

EDUCATION

- **Bachelor of Technology (IT)** | Jeppiaar Engineering College, Chennai | **CGPA: 7.9/10**
- **HSLC** | Dhaya Jothy Matriculation Higher Secondary School | **87.5%**
- **SSLC** | Dhaya Jothy Matriculation Higher Secondary School | **82.4%**

KEY STRENGTHS

- Full-Stack Web Development
- AWS Infrastructure Management
- Database Design & Optimization
- Responsive UI Development
- Cloud Deployment & Hosting
- Problem Solving & Debugging
- API Development & Integration
- AI Feature Integration
